

# NORTH CENTRAL WORKFORCE ALLIANCE OF OHIO

Erv Howard, Executive Director

## OUR MISSION

The North Central Workforce Alliance of Ohio (NCWA) is a business-driven partnership consisting of employers from North Central Ohio whose focus is to share resources and ideas to solve common problems in attracting, training, and retaining the qualified and dedicated employees needed to grow area businesses.

## Strategic Partners

Thomas P. Miller & Associates (TPMA) was instrumental in the initial structure of NCWA of Ohio. TPMA has a long history in workforce development, sector partnership development, and strategic planning. This partnership has been invaluable over the years, allowing NCWA to create new partnership opportunities with business, industry, and education.

## NCWA OFFICERS

### PRESIDENT

Ashland Comfort Control

### VICE-PRESIDENT

Dan Moore  
President  
Simonson Construction, Inc.

### TREASURER

Dennis Miller  
Vice-President  
Sutton Bank

### SECRETARY

Beth Gaubatz  
Education Consultant  
Tri-County Educational Service  
Center

## COUNCIL OF CHAMPIONS

The Council of Champions is responsible for providing guidance and direction to the activities described in the strategic plan and to oversee and monitor implementation of proposed action plans.

## SECTOR COMMITTEES

Sector Committees provide subject matter expertise, guidance, and support to the Champions Council on industry-specific action items and workforce needs. Sector Committees are made up of industry members with two representatives on the Council of Champions. The eight sectors are: Agriculture/Animal Science, Construction, Heavy Equipment, Information Technology, Manufacturing, Medical/Bio-tech, Service/Retail, and Welding.

## ACTION TEAMS

The Action Teams are designated to provide input, oversight and monitoring for categories of activity associated with the Strategic Plan. Composition of the Action Teams is based on the categories of activities and include the partners necessary to successfully implement the projects and activities. Action Teams report to the Council of Champions on their progress and results.

## OUR SUCCESSES

### Women in Hard Hats

NCWA had a great opportunity to partner with Ashland County-West Holmes Career Center to introduce their Junior and Senior girls non-traditional “hard hat” careers “It’s a very awesome event” said one of the girls who attended the event that was hosted by ODOT District 3 in Ashland, Ohio.

### 2 BE Connected Teacher Tour

Teachers visit Brethren Care Village, Packaging Corporation of America, and other local businesses to learn more about what skills students need to enter the job market.

### Career Fair

ACWHCC

Simonson Construction and Centerra Co-op talk with Ashland County-West Holmes Career Center students at the Career Fair.

### Girls with Goggles

Pictured here is a group from the first annual Girls with Goggles event. This event invites girls from the Ashland area schools to explore non-traditional programs at Ashland County-West Holmes Career Center. Girls with Goggles is now held each year. Recently, one of the girls who attended said “I learned I’m capable of much more than I thought”.

### Annual Summit

Joanne Mueller, Vice President, Human Resources at Cedar Point Amusement Park speaks at the 2019 NCWA Annual Summit. Ms. Mueller shares innovative methods Cedar Point is using to attract employees. Each year, NCWA hosts speakers who share resourceful information about employment challenges to members and guests.

# COMMUNITY PARTNERSHIPS

## Business Advisory Council

The Tri-County Educational Service Center Business Advisory Council provides a partnership between member schools and the business communities of Ashland, Holmes, and Wayne Counties. The NCWA of Ohio serves as one of the regional business leaders and partners of the Tri-County ESC BAC. The BAC is committed to building curriculum and broadening exposure to the business world in order for students to extend their learning beyond the classroom by gaining valuable input from members regarding essential skills students need to be successful in the 21<sup>st</sup> century and beyond.

## Ashland County-West Holmes Career Center

Ashland County-West Holmes Career Center (ACWHCC) has partnered with NCWA by serving as the fiscal agent, and providing marketing and IT services. The Career Center's vision is to drive economic growth of the region through prepared graduates who meet the needs of employers. The mission is to inspire students to career success by providing real-world skills, credentials, apprenticeships and externships.

## Ashland Area Economic Development

As Ashland County's primary economic development agency, workforce development is critical to growing our local economy. The NCWA is leading our county's effort to connect our local businesses with the men and women who will fill our company's positions in the years to come. We have been a proud partner in supporting their efforts to educate our area students and school personnel on the many unique and exciting careers that are available across our county.

A message from Erv Howard, Executive Director

In 2014, numerous area businesses began meeting with Ashland County-West Holmes Career Center (ACWHCC) to discuss the challenges they were experiencing as companies. It quickly became clear that no matter the industry, the number one concern was with workforce. Whether it was creating a pipeline of future employees, or retaining current employees, it was becoming more and more difficult to keep the volume of employees they needed. As discussions progressed, it became apparent, businesses would need to be proactive in addressing their own needs, thus North Central Workforce Alliance of Ohio was established.

Employers quickly realized they would need to look beyond the scope of available employees, to the younger generation who had not yet entered the workforce, the generation that would choose college or work. Businesses would need to persuade these young people to consider a future that may require credentials instead of, or at least prior to, college. Women in Hard Hats became the first initiative to start addressing the need of future employees. This program introduced high school girls to non-traditional jobs in construction. Members soon realized that by the time students entered high school, many had already decided what their future would hold. This meant reaching younger students, so Girls with Goggles was created to introduce sixth-grade girls to non-traditional careers. In its first year, over 300 girls had the opportunity to explore non-traditional careers. The following year, Guys with Gloves was added.

Educating students about careers in industry cannot be accomplished without the support of teachers. To help teachers understand their role, Teacher Bootcamp was created in 2017 to give teachers the opportunity to visit regional businesses and learn what employers expect from new employees. This sparked teachers to explore their curriculum and discover how they could make changes that would better prepare their students to be successful employees.

Employers wanted the opportunity to connect with students face-to-face. While many already visit local schools and career centers, in 2018, ACWHCC started an annual Career Fair, offering NCWA members first option to attend.

NCWA hosted their first Annual Summit in 2015, with panel discussions, student attendance, and breakout sessions to share new ideas and successful methods regional businesses are using to address their challenges.

I invite you to join us in creating and establishing a continuous pipeline of talented employees for the success of your business. Be a part of the solution for the future.
